Vinyl Applicator

Description

Established in 1947, Blanchett is an industry leading Edmonton-based, family owned & operated signage provider servicing the Western Canadian Region.

The quality of our signage solutions are solely due to the experience of our team, and we pride ourselves in ensuring our team members are specialized. If a collaborative environment aligns with your values and skill set, then Blanchett may be the fit you are looking for.

Blanchett offers a full benefits package, RRSP program, and opportunities for advancement and personal development following the probationary period. Please review the details below if you believe we provide a career path that interests you.

Currently, we are seeking a Vinyl Applicator to join our industry-leading team of professionals in Edmonton, AB.

This is a full-time position in a unionized, custom manufacturing facility, and the successful candidate will be responsible for preparing and installing vinyl graphic images to a variety of substrates within the fabrication process.

This role will report to the Production Manager and join an experienced Fabrication team who will provide full training and support.

Responsibilities

- Perform all work in accordance with quality standards and safety procedures.
- Prepare and install graphics ranging from decal cut vinyl to large full coverage mural
- Trimming, laminating, and applying prints to substrates, material preparation and finishing, fabricating signs, installation of a variety of signs.
- Tracking of working projects, coordinate with other staff for production / installation.
- Perform routine housekeeping duties in the shop as directed by the production manager and other team members.
- Other duties as assigned.

Qualifications

- Minimum two (2) years experience in vinyl application
- Knowledge and use of various hand and power tools.
- Fluent in the English language (reading, written, spoken)
- Able to demonstrate good hand/eye coordination and manual dexterity
- Easily read, evaluate, and respond to product specifications and drawings, and perform normal math calculations
- Able to operate required equipment in a safe and responsible manner
- Ability to handle changing schedules and priorities, with high level prioritization skills
